Financially Independent In Three Years Through SFI

*Thanks to Winston Saga
AUCKLAND, NEW ZEALAND*

Wish you all a great month. I am sure this year is going to be a year of Prosperity, Abundance and Great Health.

There is a time to sow and a time to reap. If you sow more, you will reap more. If you sow little, you will reap little. You cannot sow and reap in the same season. Everything has a season.

If you think of poverty, you will become poor. If you think of prosperity, you will become rich. If you keep your mind healthy, your body will be healthy. If your mind is weak and timid, the body will become sick and stressed out.

People always talk about their bills, pay checks, and their circumstances. I will advise you to talk to your inner mind and also to your friends and family about good health, prosperity and happiness. The more positive thoughts you feed your mind, the healthier your mind and body becomes.

A good friend of mine became a millionaire in one year using "auto suggestion." Auto Suggestion helps you to reprogram your subconscious mind. If your mind is negative, filled with fear, doubt, and worry, you will live in a negative vibration all the time. Everything in this world is energy. We are nothing but energy. If you have negative energy all the time, you will have a very painful life. If you have positive energy, you will have a very successful and fruitful life.

It is very easy to change from negative to positive. It takes 21 to 30 days to change the way you think. Start saying to yourself,

I am a happy person, and I make other people happy.

I always think good thoughts in my mind.

I am very rich. I am a Millionaire.

Repeat that 100 times before going to bed. The good news is you don't have to meditate or relax your mind. Again, repeat it 100 times when you wake up in the morning. Right through the morning, repeat the same affirmation. Your old thoughts will come and bombard you, but don't worry...slowly, your old thoughts will give way to the new thoughts. If you want to become rich, you should think of riches all the time. If you want to be healthy, you should think of health all the time. If you want to be poor, think of poverty all the time. It is your golden choice.

Enjoy every minute of your life. See life to the fullest. The mediocre see the cup as half empty, a prosperous person see it as half full. Whenever you have time, say to yourself:

I am healthy. I am happy. I am rich. I am successful. I love myself. I reject all thoughts that cause worry and anxiety. Worry is a useless habit. I am calm and peaceful person. I always make other people happy. I am kind person. I give my love to the poor and needy.

You cannot become rich by working for someone. You will make your boss and your company rich. SFI could make you rich with as little as 20 minutes a day. Send newsletters to your affiliates every week. Send motivational tips. The way you can make money in SFI is by helping other people. The more people you help, the more successful you become.

SFI really works. Become an Executive Affiliate and start earning money. Talk to your friends, colleagues, barber, dairy owner, super market staffs, your dentist, courier person, mail delivery person, and paper boy. You won't know who is waiting for an opportunity.

I e-mailed couple of my friends. I got a response from two of them saying they were glad I e-mailed them. They were looking around to start a home business. Immediately they joined.

There is opportunity everywhere. There are 7 billion people in this world. All you need is three good people to help you. If you set your goals—with a purpose, a road map, and persistence and determination—you will be on your way to success.

Surround yourself with successful people. Read motivational and sales books. Read autobiographies and biographies of great men and women. Listen to tapes and watch videos. If you follow these instructions for the next two years, you will be a different person. You will think differently; your knowledge will be different from other people; you will walk differently; you will respect other people; you will have more money in your bank account; and, above all, you will have great health.

Reading makes a full person. See Gery Carson (founder and president of SFI) as your role model. Spend time with two or three people who have the same interest as yours. Have a master-mind program. Help one another, and things will come easy for you. Share your experience, knowledge, and wisdom.

If you spend two years working the SFI program, you can earn \$5,000 a month...it just takes a little effort.

Let this year be a year of prosperity, abundance and great health.

Remember, overcome procrastination, motivate yourself, and be the person you want to be! See yourself as successful. YOU create your circumstances...circumstances never create you. It is your choice. To become rich is your choice; to become healthy is your choice; to become confident is your choice. You are created in the image of God. God wants you to be successful, prosperous, confident, happy and blessed.

Show unconditional love and, above all, charity. Give 10 to 15% to the poor and needy. When you give money to the poor—the poor won't be able to return the money back to you—you are lending to God, and He will pay you back 10 times more. Don't say to yourself "When I get the money I will give." It will never happen. Give what you have and see the difference. First, you will become a different person and, secondly, you will be filled with love, joy, good health, and prosperity.

If you haven't yet advanced to Executive Affiliate (EA) status, go here:

<https://www.sfimg.com/AffiliateStore/EA.sfi>

Keep in mind, you can advance to EA status. Make the best use of it. Many network marketing programs cost you more than \$1,500 dollars to start with. With SFI you can start your own home business with "0" dollars! A fantastic organization...Be a part of it.

Wishing you the very best.

Winston Saga

About the author:

Winston is an SFI Affiliate and a successful home-business owner in New Zealand. His Website "Telesales & Marketing" focuses on achieving total success in sales and your personal life and features lots of expert advice and tips on increasing your sales and profits.
